

# Green Screen Crew Memo.

Tesco Aldi Price Match is making a concerted effort to reduce our impact on the environment.

To help, we've signed up to the Green Screen Environmental Production programme, powered by Film London and Greenshoot and supported by the BFI.

Please help us to reduce the amount of material we consume, recycle the waste we create, and conserve energy whenever possible.

## We will work to implement the following environmental measures:

Producer to complete an Environmental Policy to generate this Green Screen Crew Memo.

Have a Green Steward to oversee the environmental programme.

Implement a production recycling programme.

Won't use polystyrene in the catering dept. (It is carcinogenic and non recyclable.)

Donate any unwanted production assets (food, props, clothes, etc.) to charity.

Implement a 'Switch Off' energy reduction campaign.

Implement a no-idling policy for all vehicles.

## Reduce

We will distribute call sheets, MOs and RAs electronically.

## Recycle

We will recycle all batteries.

## Conserve

We will use rechargeable batteries.

We will have meat free meals.

---

The production's Green Steward is [Millicent Sharratt](#) If you have any questions, feedback or suggestions please get in touch with them at [millicent.sharratt@themill.com](mailto:millicent.sharratt@themill.com).

Or at [office@green-screen.org.uk](mailto:office@green-screen.org.uk)

Thank you for supporting the Green Screen Environmental Production Programme
